MAPPIN - PRIVATE FAMILY CONSULTANCY

John and Irina Mappin and Ted Stourton are delighted to share our group and services with you.

The world today is indeed changing. When one compares today's world to the world in 1775 in which Jonathan Mappin founded our first family business the changes are very obvious on one level but can be minutely subtle on others.

Of course some things remain unchanged. Uppermost, as far as our family is concerned, is our unchanging dedication to serve our fellows and to bring forth the very best in service, excellence, genius and technology.

The combined experience and knowledge of many well lived lives has conspired to bring us, as mankind, up to the point where we are now in a position to make very definite inroads into areas of life's problems and into difficulties for which in the past no solutions have been available and to make solutions to those problems and difficulties available for the first time.

So as you read through this presentation please understand that while there are never any guarantees in life and we issue no guarantees to help, you are looking at a group and an intelligence gathering function that in actuality is completely new and different, and that nothing like it has ever before existed.

In few critical areas of life where previously there was not even a ray of light on the horizon... there is now hope.

It is our hope to continue in service.

John Mappin

Family History

FAMILY OFFICE ADMINISTRATION

A family is a Living Organism. As such it follows natural laws. When these laws are known it prospers and when they are not a family can falter. Excalibur - Mappin Private Family Consultancy has located discoveries of such magnitude, in direct alignment with these natural laws that can literally change the destiny of a family forever. In fact it is unlikely that there is family today that would not prosper in receipt of this breakthrough.

LEGACY PLANNING

The Legacy of a Lifetime is not something that is often considered.

What do you want the sum effort and result of this lifetime to be? Have you aligned all components of your life to achieve that?

This is a unique private service that by all accounts has rewards that stretch well beyond the immediacy of today.

PHILANTHROPIC YIELD ANALYTICS

We are all philanthropists to some degree, however well some materialists may attempt to convince us otherwise, in fact every time we choose to help life, we engage in the act of philanthropy at whatever level large or small. But how efficient is your philanthropy and are you getting the sort of results on your philanthropic actions that you should get and want to achieve?

Excalibur Private Family Consultants' personalised Philanthropic Yield Analytics can open your mind to the possibility and sheer power of more efficient philanthropic actions.

EDUCATION PLANNING

Education may well be the single most important factor that impacts the survival of a human being and today the educational choices open to every human being are both expanding and are as varied as lives lived vary. New forms and methods of education come into being everyday. People say knowledge is power but if that knowledge remains unaccessed by the individual it cannot generate the power and do the good that is possible when knowledge is known.

Excalibur Education Planning helps you make the most of your and your family's opportunities to receive and deliver education and may well open up new avenues that you were perhaps unaware of or had not correctly evaluated. We have isolated the location of many of the essential fundamentals needed for optimum education.

Our principal goal is to make sure your family gets the knowledge it needs to survive and with which to safely navigate life today and in the future.

SURVIVAL PLANNING

Perhaps the Jewel in the Crown or Holy Grail of Excalibur Private Family Consultancy services - Survival Planning delivers access to a completely new technology that deeply impacts family survival and that can help solve hitherto unsolvable problems in any area of life.

LOCAL & INTERNATIONAL CONFLICT RESOLUTION

Some of our proudest achievements as a group and as a private family consultancy will never be heard about and that of course is correct, because with regard to conflict resolution, where there once was a conflict there is now peace.

And while our world's conflicts grab the headlines our view is that there are some headlines and conflicts that one can do without.

Individuals, Families, Groups and Nations and Continents can engage in conflicts. One sees the consequences of these daily.

We are in a unique position to give knowledge to any individual or group and we are able to help you and them begin to resolve any conflict large or small.

There has been historically something unknown about all conflicts that causes them to persist. This factor is now fully isolated and known and knowing this factor, there is now no conflict that cannot be resolved.

ARTISTIC REHABILITATION

The creativity of a person may be very close to one of the most valuable capacities that he or she possesses.

The upset that can manifest when a writer or artist feels that they are blocked creatively is quite well known.

As a principal service we can direct a person toward knowledge that can help to unblock an artist's passion and rehabilitate their creativity.

We are delighted to have helped some of the most prominent artists of the age by rehabilitating their creativity.

In some cases our work has spurred artists to achieve even greater heights reaching their most magnificent dreams.

FAMILY DRUG REHABILITATION & EDUCATION

The world today is beset by an onslaught of drugs good and bad and plays host to a medical industrial complex that in some quarters is geared to profit and had long since abandoned many of the noble principals of the healing profession.

As a result families often find themselves with their heirs and loved ones addicted to harmful drugs.

All too often this can lead to death or to a total mental demise of the individual and a crippling of his and his family's future.

At the same time some drugs and medicines save lives and so it is vital to know the difference between harmful and helpful drugs.

For over 23 years we have researched out the most effective solutions to harmful drugs and have located drug rehabilitation programs that actually get results.

While we offer no assurances of result and offer no guarantees, we are delighted to be able to share this knowledge with those that need it.

ADMINISTRATION TROUBLESHOOTING

Businesses are very specialised groups. Mappin Private Family Office has a track record of turning around or accelerating the fortunes of businesses of all sizes even in the most challenging economic climates.

CAPITAL SOURCING & SECURITY

When a business is correctly administered it locates the investment capital it needs to expand. Security is a natural consequence of an optimally administered group. Our experience in this area can open up new avenues for any activity that may not have been previously explored.

SPIRITUAL TECHNOLOGY

The combined thinking and scientific analysis of 50,000 years has resulted in some precise distillations of natural laws that are highly relevant to the eternal journey of the spirit and to life today.

Understanding these axiomatic principles and natural laws have proven to be most helpful.

Of course no one can ever tell you what your grail or truth is, but they can hand you keys that will accelerate your journey to your grail or your truth beyond your current imaginings.

At Mappin Private Family Office we are in a unique position to share some hard won knowledge and point out where some simple discoveries and answers lie.

THE END OF WAR

Perhaps the most exciting new technology that we have ever been presented and that we have gained an in depth understanding of, is a totally new technology that has the capacity to end war in the world and bring about peace on all continents.

As a society we live confronted with the ills of war and its consequences.

Some live with war in their cities, some distance themselves from it or cloak the reality of life by immersion in the numbing pleasures of materialism.

Perhaps the idea that there may exist somewhere a breakthrough technology and a solution to war is almost too much for us to even begin to hope for.

But, it is a fact that a new scientific breakthrough was made, and that a new technology now exists that can bring about the end of war.

The technology now exists in a deliverable form and delivery has begun.

Our Family was given a glimpse of this breakthrough in 1991 and for over 23 years we have worked to help make sure that this development became available to mankind.

A short while ago this advanced technology was broadly released to mankind and its impact is already beginning to move through the corridors of influence and power. It is now available to everyone. And when placed in the hands of the able, the creative and the pioneering innovators of life one sees life achieve the spectacular.

This is probably the most exciting use of science and technology in the history of mankind.

It was, principally because of this breakthrough, that we acquired Camelot Castle and its adjoining estates in 1999. Once we saw this technology and its potential it became our goal to be able to help present it to those who are bright enough to understand it, individuals who have the capacity to extrapolate consequences, and to those for whom the end of war and peace on Earth is of interest.

In our view peace is desirable.

It is now our honour to be able to present this awe inspiring new technology in a form that can be easily understood.

FAMILY HISTORY

In 1775, at the age of 18 Jonathan Mappin started what was to become one of the best known Diamond and Jewellery dynasties and international luxury brands in the world that would be celebrated from London to Paris to Rio de Janeiro. The family company bearing his name would become the jeweller of choice for royal families and society's icons across the world.

A year later in 1776 the first Mappin hallmark was recorded at the assay office and in 1780 Jonathan Mappin was already well recognised as a leader in business of the day.

Jonathan Mappin's son followed him, then came his grandson. It was under his four great grandsons, who incorporated the business as Mappin Brothers Ltd, in the middle of the 19th Century that the significant expansion began – at the time the youngest brother, John Newton Mappin, was only 14 years old.

In 1849, the first Mappin showroom opened in London. John Mappin was joined later by his brother in law George Webb.

Mappin and Webb's special relationship with the monarchies of Europe began in the late 19th Century and was formalised when HM Queen Victoria granted a royal warrant to Mappin & Webb in 1897, the year of The Queen's diamond jubilee. Mappin & Webb has held a royal warrant to each of the five subsequent sovereigns and today holds a Royal Warrant to HM The Queen and to HRH The Prince of Wales.

As a family we have had the unique privilege to advise on or to offer and supply many of the great luminaries of the past three centuries with memorable luxury and unique products and services.

From the diamonds and jewels for royal engagements to intimate bespoke products such as Elizabeth Taylor's personal cigarette case, or more recently, the 575 carat pearl that was given to the Venetian explorer Marco Polo in 1295 by the Mongolian Emperor Khublai Khan, our interest has been in excellence.

It is the concept of the highest qualities of excellence in products and service that are relevant to our work here.

Operating at the forefront of products and technology has been our history. It is our hope that it will be our future and we are delighted to share it with you.

Jonathan Mappin is the Great, Great, Great, Great, Great Grandfather of the present Mr. John Mappin of Camelot Castle, England.
